---

### PROFESSIONAL SUMMARY

C++ Software Engineer with 4+ years of experience developing and testing performance-critical enterprise applications on Linux and Windows platforms, including medical imaging software for Canon Medical Systems. Strong expertise in Object-Oriented Programming, Multithreading, Memory Management, Debugging, and the Software Development Life Cycle (SDLC).

Following a temporary relocation to the UAE, gained experience in a technical presales role supporting Cybersecurity and IT Infrastructure solutions. Having relocated back to Kerala as part of a long-term career plan, I am now focused on pursuing software engineering opportunities aligned with my expertise in C++, systems development, and backend application engineering.

### SKILLS

**Programming Languages:** C++ (Linux & Windows), Python, Java (Strong Basics)

**C++ Engineering:** Object-Oriented Programming (OOP), Design Patterns, Multithreading & Concurrency, Memory Management, STL, Data Structures & Algorithms (DSA), Boost.Asio, Lock-Free Programming, Low-Latency Systems Design, Unit Testing (GTest)

**Debugging & Quality:** Coverity Static Code Analysis, Valgrind, GDB, Root Cause Analysis, Code Reviews, Defect Reduction

**Tools & Platforms:** Docker, Git, GitHub, SVN, JIRA, Redmine, CI/CD Pipelines, Linux, Windows

**Practices:** Agile/Scrum, Waterfall, Technical Documentation, SDLC Ownership, Cross-Functional Collaboration, Mentoring

**Web Development:** Django, HTML, CSS, Bootstrap, JavaScript/TypeScript, Tkinter (GUI), SQL, REST API Development, Python Automation

### WORK EXPERIENCE

#### Technical Associate – Cybersecurity & IT Infrastructure

March 2026 – August 2026

*Emtech Computer Co. LLC — Dubai, UAE*

- Supported the presales team in evaluating customer requirements and recommending Cybersecurity, IT Infrastructure, and Microsoft solutions, acting as a technical bridge between customers, sales teams, and solution providers.
- Assisted in technical presentations, solution documentation, proposal preparation, website content updates, and customer discussions, gaining exposure to enterprise technologies including network security, cloud services, Microsoft 365, and IT infrastructure solutions.

#### Software Engineer

September 2025 – February 2026

*Trenser Technology Solutions Pvt Ltd — Trivandrum, India*

- Engineered high-performance, maintainable applications using object-oriented design principles as part of a team, contributing to a modular codebase used by enterprise medical imaging clients.

- Gained hands-on exposure to JavaScript, TypeScript, and React.js, building UI modules for the same enterprise medical imaging platform, strengthening cross-stack collaboration with frontend teams.

## Software Engineer

June 2022 – September 2025

*Quest Global Engineering Services Pvt Ltd — Trivandrum, India*

- Developed and tested features for Canon Medical Systems MRI scanning software in C++ and supporting critical diagnostic hardware used in clinical environments globally.
- Owned the full SDLC, Reduced application defect rates through systematic debugging, root cause analysis and Coverity static code analysis.
- Built Python automation and testing utilities that reduced manual regression verification effort.
- Debugged complex memory ownership issues using Valgrind, ensuring production-level stability.
- Collaborated in an agile team environment to troubleshoot, debug, and optimize application code, enhancing performance and user experience.
- Received the **On the Fly** Award twice (**May 2023 & Dec 2024**) for high-quality delivery on critical international project modules.

## Python Developer

August 2021 – February 2022

*Infrox Technologies — Kochi, India*

- Developed and maintained full-stack web applications using Python, Django, HTML5, CSS3, and Bootstrap, ensuring responsive user interfaces and robust backend logic.
- Built desktop GUI applications utilizing Python's Tkinter library for customized internal utilities and tools.
- Onboarded and mentored incoming developers and trainees on core Python programming, Django framework fundamentals, and web development best practices.

## EDUCATION

---

### Bachelor of Engineering in Electronics and Communication

Ilahia School of Science and Technology

APJ Abdul Kalam Technological University | 2016 - 2020 | Kerala, India

## LANGUAGES

---

English, Tamil, Malayalam, Hindi
